AHMED SAYED MOHAMED

Aspiring Data Analyst | Business Intelligence

Cairo, Egypt | +20 114 090 7724 | aahmedsayedd43@gmail.com | LinkedIn | GitHub | Portfolio

SUMMARY

Computer Engineering student focused on Data Analytics and Business Intelligence. Experienced in building analytics projects using Python, SQL, MySQL, Power BI, Power Query, DAX, and Excel, covering data modeling, KPI development, and dashboard design. Seeking a Data Analyst internship or entry-level opportunity.

EXPERIENCE

Data Analysis Intern — Primeor Solutions

November 2026 – Present

- Applying data analysis techniques using Excel, SQL, and Power BI.
- Performing data cleaning, exploratory data analysis, and business performance analysis.
- Developing SQL queries, analytical reports, and interactive dashboards to generate actionable business insights.

Power BI Intern — Auspify Technologies

October 2026 – November 2026

- Working on Power BI dashboard development and data analysis tasks.
- Performing data preparation, cleaning, and transformation using Power Query.
- Developing interactive reports and visualizations using DAX and Power BI.

PROJECTS

- **Road Safety Risk & Operations Analytics:** Analyzed 513K+ UK road collisions using Python/Pandas and MySQL, building a 20-table relational data model and a 6-page Power BI dashboard featuring data-quality auditing, severity analysis, geographic mapping, and time-based collision trends.
- **FMCG Supply Chain Analytics Dashboard:** Engineered a 20-table relational data model from Python/Faker-generated FMCG supply chain data (1M+ rows) into a 6-page Power BI dashboard covering procurement, inventory, logistics, and sales, featuring custom Deneb-built KPI cards and DAX-driven profitability and stock-risk metrics.
- **Olist E-Commerce Analytics Dashboard:** Built a 6-page Power BI dashboard on Olist's real Brazilian marketplace dataset (100K+ orders), enriched with Python/Faker-generated marketing and support tables, modeled via a 13-table MySQL schema, with a custom HTML/CSS landing page and DAX-driven KPI cards.
- **Falcon Telecom Analytics Dashboard:** Engineered a 12-table relational data model from synthetic telecom data (Python, Faker) into a 6-page Power BI dashboard covering customer churn, revenue/billing, and network performance, featuring a custom HTML/CSS landing page and DAX-driven animated KPI cards.
- **Healthcare Analytics Dashboard:** Built a 4-page Power BI dashboard (Hospital Overview, Doctors, Patients & Medical, Financial Analysis) for a simulated hospital system, using Python/Faker-generated data structured in Excel, custom DAX measures, and an HTML/CSS landing page with KPI cards for a cohesive branded look.

KEY SKILLS

BI & Visualization: Power BI, DAX, Power Query, Data Visualization, HTML/CSS (Dashboard Design)
Programming & Data: Python (Pandas, Faker), SQL / MySQL, Excel, Data Modeling, Data Cleaning
Domain: Data Analytics, Business Intelligence

CERTIFICATIONS & COURSES

- Power BI, Excel, SQL & Python for Data Analysis — Self-Learning
- CCNA Networking Fundamentals — Self-Learning
- Introduction to Cybersecurity & Ethical Hacker — Cisco Networking Academy

EDUCATION

Bachelor of Computer Engineering

Modern Academy for Engineering and Technology, Cairo

Expected Graduation: 2027 | GPA: 3.0 / 4.0 (Very Good)

LANGUAGES

- **Arabic** — Mother Tongue
- **English** — Upper Intermediate (B2)
